### Our popular silk section shows "crepes" this week

Everybody is talking crepes! Everybody wants crepes! But a full assortment of crepes is the rarest thing in the silk business just now. Paris wants crepes; dressmakers want crepes; the wearer wants crepes; shoppers ask for crepes. This devotion of the trading public to crepes is stripping the market. For this reason it is fortunate for you that you can find here tomorrow an assortment of crepes unequalled in the south. Indeed, merchants in other cities are sending to us-asking if

we can spare crepes.
You will find tomorrow a particularly fine line of this much wanted silky, lustrous, supple, crepy fabric.

### We have become famous for novelty "dress woolens"

Hearty praise is heard from all sides on our showing of handsome mool fabrics. Last week's sales, were the most remarkable in our history, for the novelty weaves.

The splendor and beauty of the merchandise charmed the lookers and captivated purchasers. Truly, the French are miracle workers. They have this season produced novelties in wool and silk and wool dress fabrics that have astonished the world.

Every charm of weave, every novel touch of color is represented in this collection of French novelties. The fabrics are new, the color tints are new and possibilities for elegant draperies are certainly newer than anything heretofore shown.

COMPLETE HOUSE FUR

Atlanta, Ga. Oct. 21, 1915

Gentlemen: -

Wednesday, October first, we inserted an ad. in your paper of Ladies' Trimmed Eats at \$4.95, intending to sell 400 of them. Before Il O'clock 150 were sold- and telegraph orders, mail Orders, etc. made 50 more. Our Trimming Department became almost blocked so great the sales.

One telegram from a city 100 miles from Atlanta ordered two. In one hour they were on their way by express. October 4th we received the following letter:-

The two hats ordered by wire were received this A. M. by express. Find enclosed the check for the amount of same, \$9.95. I appreciate your kindness in shipping them out to me so promptly. It has always been a pleasure for me to deal with your firm.

Which goes to show the value of the Constitution in an adver-tising way backed up by prompt work of the advertiser. We always make it the first point of our business to be "wide swake" and serve all

Honest goods, fair prices, good salesmanship, exploited by properly written and displayed advertising in The Constitution, will make for any merchant a healthy, thriving increase in business. You will eventually advertise in The Constitution, why not

now?

R. T. MOON INE SHOES

Dear Sirs,= It may be gratifying to you to know that the results I received from the full page advertisement in last Sunday's Constitution, exceeded my greatest expectations.

My Morth side store, 167 Peachtres street, recently opened, did its largest day's business following the insertion of our opening advertisement in the Comstitution.

The South Side store, at 29 West Mitchell street, had more business Monday and Tuesday of this week than we could possibly wait on.

I was surprised at the people that visited these stores who heretofore never had been he either of our stores. The response was no. pleasing as there were an prices quoted in the entire page.

I am sending you some follow up copy to begin next Sunday, October 12, advertising our North side store.

Thanking you for the assistance I have received from your idvertisers' Service. I am.

It is a matter of common knowledge that state and southern bankers, ever since the war, have restricted credit almost to use the homegoun expression, "in fence to work to their undoing by planting cotton, to use the homegoun expression, "in fence coveres and graveysards." The result has indifferent prices. The other effect, by barring freedstuffs and castle from the credit list, has been deather out of the section to seen difficulties annually out of the section to the contraction of the section of the credit in the remove of revenue which would otherwise have accured with the retwing of the Certification of the first the remove of the section of the first for the contraction of the certification of the contraction of the certification of the certific

nourse of revenue which would otherwise have accrued with the revival of the cattle Industry and the cattle Industry in Coordia, here has, particularly in Coordia, here a realization of the fact that the policy worked against our own interests, and a turning to more sensible methods. Bankers are beginning to see that it is wise to include cattle and corn in the list of credit eligibles. And they are also, to apply Mr. Chapman's theory more lineasely, and the state of the cattle and corn in the list of credit eligibles. And they are also, to apply Mr. Chapman's theory more lineasely than the cattle of the cattle and the work of the cattle and the principles of which we have spoken. And ditions under which he works is the most powerful factor in the national prohiem of the cost of living, the widesepreed adoption of Mr. Chapman's advise is soon to be not a matter of philastiropy, but literally of self-preservation.

They say the Colonel is after the g. o. p. elephant: but there are not enough progres-sive party workers to raise a circus tent over it.

Mr. Bryan says that he has sometimes "paid for the privilege of talking." "Some times:" but he doesn't take the free lecture sign along with him.

PLAYER

The Kimball Playur-Piano is the nearest approach to the human touch that it is possible for inventive genius to devise. When properly played, it is impossible to distin-guish it from pieces rendered by a skilled artist playing by hand, or manually.

Non may have heard in some homes player-pianos which were not estisfactory—that failed to give the proper expression and feeling. Don't make the missake of assuming that all player-pianos are alike. It will pay you to investigate the merits of Kimball Players, and an hour spent in our player room will sourhee you that there is nothing mechanical about this flexible instrument.

Mediatives about time number instrument.

Kimball instruments—Player-Planes, Uprights, Residence and Church Pipe Organs—are seld direct by the world's largest manufactures, through this Branch Store, climinating intermediate profits of the jobber and dealer, and consequently, at a great saving in price to the buyer.

Our one, absolutely one, price at which our goods are sold is a positive protection to the experienced as well as the inexperienced buyer. It insures both of receiving full value for their money. In over fifty years of merchandising we have found that in order to be both f. to ourselves and to the buyer the One Price System is the only basis on which planes should be sold.

## Visit relatives in Tailapoosa before returning. Visit relatives in Tailapoosa before returning. Miss Moselle Licheuch entertained of the first and provided the first and provide Allen's Shoe Room

ments this season, the vogue of velvets, plushes and other pile fabrics, a demand has been created for women's footwear of surpassing elegance and quality.

Just as certain manufacturers of women's garments were caught unprepared by the suddenness of the change from garments of utilitarian value to those of the luxurious type, so has the average shoe dealer and nanufacturer alike been overwhelmed by the demand for footwear in keeping with the beautiful garments of today.

That is one distinct advantage that the buyer of shoes at Allen's enjoys over the dealer handling shoes alone. Frequent conferences are held between our various buyers and the tendencies of the season's new styles are discussed just as soon as they appear on the horizon.

We are giad to say that the demand for footwear both for day and evening dress of this more elegant, more beautiful type, has been fully prepared for here.

We are receiving shoes almost daily by express that a year ago it would have been impossible to sell.

Colonial or low effects are selling almost as strong with us now as boots were this time last year.

& now carry three boots on the floor, in all sizes and widths, at \$8.00 a pair, which is the highest grade of ready-made footwear obtainable. The same thing in colonial pumps with the cut steel buckle, already attached, is \$8.00, or \$7.00 with the plain buckle.

We challenge any store in the city or even New York to show higher-grade or better shoes than can be found at Allen's.

grade or better shoes than can be found at Allen's.

Our evening footwear has always been conceded to be the largest and most comprehensive, in point of colors carried in stock, size, width and price range in the South.

Our boots and colonials begin at \$4.00, and then on up to \$4.50, \$5.00, \$5.50, \$6.00, \$7.00 and \$8.00.

The evening footwear begins at \$3.00, and, according to the price of the ornament, runs as high at \$15.00 a pair.

Our children's shoes are marked very close; according to the sizes are \$1.50 to \$4.50 a pair.

Hart Schaffner & Marx men's coats for women

YOU get some idea from this illustration of what we're doing about "men's coats for women." Here are four Here are four of our most successful models well shown.

# From left to right these are the styles:

- 1 A 30%-inch double breasted, soft front, three-button Norfolk jacket, with adjustable collar; bellows patch pockets; yoke and plait in the back and belt all around.
- 2 A 50-inch double breasted, soft front, two-button overcoat, Raglan shoulder, shawl collar; patch pockets; short silk yoke lining.
- 3 A 50-inch double breasted, soft front, motor coat, adjustable collar; silk yoke lining; vertical pockets cut through; short belt at the back.
- A 50-inch slip-on, soft front, three-button-through; patch pockets, seamless back, adjustable collar.

Women who wear these coats appreciate the comforts and conveniences they offer; and the advantages of all-wool fabrics, superior tailoring, and very smart style. Our dealers can show them.

# Be Sure You Get a Nemo!

ONCE more we are compelled to sound a note of WARN-ING. Uncorrupulous manufacturers still persist in trying to palm off, upon the unuary, VASTLY INFERIOR IMPLIATIONS of Nemo features and fabrica-epurious "supporting" and "restscing" corsets," elastics that rip—in the hope that you won't know the difference. Original Nemo inventions and trade-marks—even over "dad" and illustrations—are copied, with the obvious intent to deceive you.

RE A WISE WOMAN! Don't fall into the trap! If you seek genuine Nemo style and comfort, REFUSE all corsets that do not beat the trade-marks "NEMO" and "LASTIKOPS."

You should strongly RESENT all attempts to sell on imitations of the Nemo, for such an attempt is othing less than an attack upon your health, your figure and your purse.

# perations Avoided

Thousands of surgical operations are performed every year in our great city hospitals upon women afflicted with serious fe-male troubles. Sometimes the operations are successful and sometimes they are not; sometimes they are necessary, many

It is safe to say that a very large percentage of surgical operations for female troubles may be wholly avoided. This statement is amply proven by hundreds of letters constantly being received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., and the following letter from Mrs. Orville Rock of Paw Paw, Mich., relates her sad experience, which is only one of thousands that are constantly occurring. Had she taken Lydia E. Pinkham's Vegetable Compound at first, as she finally did, her dreadful hospital experience would have been avoided.

Here is her own statement: Paw Paw, Mich.: "Two years ago I suffered very severely with a displacement. I could not be on my feet for a long time. My physician treated me for several months without much relief, and finally sent me to Ann Arbor for an operation. I was there four weeks, and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound, and advise my friends who have any female complaint to try it,"—Mrs. ORVILLE ROCK, Paw Paw, Mich.

If you are ill don't drag along until you are advised to have an operation, but remember that for thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills and has saved a vast army of women from surgical operations. No sick woman does justice to fierself who will not at least give this famous medicine a trial.

1914 ANNOUNCEMENT

Still More for the Money; No Change in Price

FOR the past season, the Paige "36" at \$1275 has been recognized by encoupled as such mixed by encoupled as such mixed by the season at \$1275 has been recognized by encoupled as \$1275 has been recognized by encoupled as \$1275 has been recognized by the season at \$1275 has been recog nized by everybody as such extra value that it has had no competition. Manufacturers and dealers with cars selling at similar prices have declared the Paige "36" "a gift" at the price. They haven't even hoped to compete with it. They have been content to get their share of the business that we couldn't handle.

of the business that we couldn't handle.

The equipment of the Paige "36" is universally acknowledged to be of a character and completeness only found on the highest priced cars. But bear this in mind—it is the Paige cur itself, not its equipment, that has demanded the consideration of the trade and public alike and that is responsible for its overwhelming popularity. Clothes don't make the man and neither does equipment make a motor car. It is the superior design, the unusual mechanical features, the power and fiestbility of the wonderful Paige motor, the quality of materials and workmanship, and the spiendid construction of the Paige "36" throughout that have kept the thousands of Paige owners, in all parts of the world, enthusiastic over their cars and made every one of them a Paige "booster." No amount of equipment could possibly accomplish this if the car itself was not right. When you come to look at the Paige car, if you are not an automobile expert bring one with you. You can judge the equipment, no other car has ever been produced at anywhere near the price that will give you as much in fine construction, size, power, economy, comfort and style as the Paige. These are the qualities no other car has ever been produced at anywhere near the price that will give you as much in fine construction, size, power, economy, comfort and style as the Paige. These are the qualities not which it will pay you well to judge your motor car.

It is hard to realize that the price of the Paige "36" is only \$1275. A really big, roomy car, 116-inch wheel base; left side drive and center control, a powerful, quict \$455-inch Paige motor; unit power plant; eilent chain drive for cam sheft, pump and generator; deep tilted loinch custions and a score of the features of design and construction which place this car beyond competition. As for equipment, in every detail, from starte to tail-lamp, it is all of the highest class.

Last year a lot of big men in the trade said we couldn't afford to sell the Paige "36" for \$1275, and that

seen, lifty Cursians, Combined Role. Valoue and Ventheling Whenhold, New Sold Transis and seed of the All of this is added on for 1914 and the price remains the same. If the Paige "85" has been sent to year—and for every car delivered there have been many purchasers waiting,—what a value it is feast. No other car approaches it in value at the price, and you would have to pay four or five hundred find more value in any car.

This isn't "advertising talk." It is just the plain old-fashioned unvarnished truth and almost nows automobiles will tell you so.

Production has been increasing steadily in the factory and we are able to take care of more purchen now. The plant is working day and night. Deliveries of the 1914 models are being made as proce expected in the case of a success like the Paige "36". Our immense new factory is under construenced to it will still further facilitate Paige production.

Above all things else, the Paige "35" deserves consideration first fact as as. But consider its equipment.

No matter how hard you drive a Cartercar—over what hilly, sandy or muddy roads you travel—there is nothing to give away, to cause trouble the next time you are in a tight place.

You simply cannot appreciate the value of these points until you get out on the road. Until you drive a Carterear you cannot understand how one car can be so much more efficient, so much more reliable than other cars.

Unlimited speeds-economy of power-easy co --and far greater wear from tires because of the climination of jerks and jars—these are exclusive features that are making Cartercar popularity so great everywhere.

# Why the Price is Lower

ERE we present a few concise cold factory facts, so that you can get a faint idea of what 50,000 cars a year means, and how it makes possible minimum economy. Read carefully. Then draw your own conclusions.

We are the second largest consumers of aluminum in the world—not in the automobile industry—but in the world.

We use 18,000 pounds a day or 5,400,000 pounds a day or 5,400,000 pounds a year.

This year we will use 20,000 tons of steel.

One of our recent monthly averages on incoming freight alone was over 35 carloads a day, or a total of 5,100,000 pounds of incoming daily freight.

On estgoing freight we never fall below 35 carloads a day and often go as high as 60 carloads a day. This year our outgoing freight will approximate 270,000,000 pounds.

Charming Coats, Suits & Gowns

A FASHION SHOW of correct Fall apparel based upon the judgment of New York's best dressers. Not a hastily thrown-to-gether melange of styles acquired early in the season, but authoritative modes carefully selected after September 15 on our buyer's last New York trip. Discriminating women will find in these coats, suits and gowns, garments of charming individuality and distinction; some of Paris copies; some designed by New York artist-tailors; all showing some touch of Paris in their "make-up." It's a Fashion Show embodying all the best of the American and Foreign styles for cultured American women.

# Atlanta Belle of 1913 A Fascinating Creature

The Atlanta belle of 1913 as Hazel Miles, Atlanta's fashion illustrator, sees her, on the street, at a ball, and in her boudoir, will be the most fascinating of creatures. On the street she will war a graceful garment that will cling about her dainty ankles. Her coat shows a waistcoat, and her hat has a crown of Paradise. At a ball, she will have a swirl of soft material about her high-heeded slippers, a tunic of fur-edged net will have finish at the waist on a single flower. In the bodier will have finish at the waist on a single flower. In the bodier will start the single chiffon, from the upper garment drooping from her shoulders, to the lace-edged garment above her satin slippers. Her boudoir cap will fit close to her head, not altogether hiding stray curls undermeath.

Whether she chooses for her gown white or black, purple or green, or tries the faint color of she rose, the orchid or the Enchantress carnation, her smartest gown will have a finish of fur and her hat will fat close to her head. Her dressy shoes will have high heels, and she will walk with a sinewy glide.

At the up is a picture of Miss Miles by Hirshberg and Philips.
